

AI PRODUCTIVITY

Copilot Studio Landing Zone Accelerator

A secure, governed foundation for building and releasing AI Agents at enterprise scale

For more information on this, or our wider **AI Productivity** services, speak to a Cloud Direct Sales Executive or contact hello@clouddirect.net.

Service overview

Building AI Agents at scale demands a foundational platform that protects your data and enables innovation.

Cloud Direct's Copilot Studio Landing Zone Accelerator provides a structured, fixed-scope engagement that establishes a secure, compliant, and scalable platform for developing AI Agents. By implementing core governance, policies, security structures and an environment designed in line with Microsoft best practices, it enables confidence in innovating responsibly and achieving value quickly.

Who is this service for?

Businesses that are seeking to unlock the power of AI Agents at scale and need governance, security, and controlled releases across Copilot Studio and Power Platform.

Addressing your challenges

Slow innovation and value creation

Security, data, and compliance risks

Loss of control and increased costs and effort

Expertise in action

Our team of Copilot experts design and deliver the Landing Zone required to scale AI Agent development while maintaining enterprise-grade control.

What we deliver

- A production-ready platform for building and releasing AI Agents with reduced risk
- A reference "First Agent" that demonstrates secure, compliant build-to-release promotion
- Embedded governance and controlled release management to protect data and enforce policy
- Integrated monitoring and auditing that ensures AI Agents remain visible, compliant, and production-ready at scale

Outcomes that matter

Gain a clear understanding of data maturity and confidently plan investments that accelerate the adoption of impactful data, AI, and analytics capabilities.

Secure and scalable Agent development	Reduced operational risk with consistent governance	Improved development velocity	Defined roles guardrails across environments	Clear and accessible Agent auditability	An operational model for long-term Agent success
