

CLOUD, DATA AND AI MODERNISATION

Azure AI-Ready Landing Zone Accelerator

Deploy AI at scale with a secure, governed Azure foundation built for production

For more information on this, or our wider **Cloud, Data and AI Modernisation** services, speak to a Cloud Direct Sales Executive or contact hello@clouddirect.net.

Service overview

Accelerate your journey from AI pilot to production with a secure, governed Azure foundation designed for scalable AI deployment.

This engagement accelerates the design and build of the foundations required to move AI applications and agents into production. It is designed to remove the structural blockers that stall AI adoption by establishing the right controls for security, identity, networking, governance, and operational readiness from the outset.

Who is this service for?

Mid-to-large organisations operating in regulated, risk-sensitive, or cost-conscious environments where private access, governance, compliance, and operational control are non-negotiable.

Addressing your challenges

Tackles delays caused by risk and compliance concerns

Prevents data exposure and identity misuse

Creates a repeatable, scalable foundation, not isolated pilots

Your Frontier Journey

Frontier Studio

Frontier Foundation

Frontier Build

Expertise in action

Our team of experts deliver a defined, fixed-scope Azure AI landing zone designed to support secure and scalable AI deployment.

What we deliver

- A dual-environment Azure AI landing zone for build and release activities
- Governance, security, identity, and networking controls aligned to AI workloads
- Private access patterns for AI services with no reliance on public endpoints or static keys
- Monitoring, logging, and operational handover documentation to support ongoing management
- A foundation suitable for both generative and non-generative AI use cases

Outcomes that matter

Enable organisations to move AI initiatives from pilot mode to production with greater confidence and fewer delays by putting the right controls in place early.

Safe AI adoption across your organisation

Improved stakeholder confidence

Reduced long-term operational costs

Scalable foundations for future AI growth

Improved AI adoption time-to-value

Shared expertise for long-term success

Cloud Direct's added value

Our team combines Azure platform expertise, governance-led service design, and operational delivery experience to help clients adopt AI on a foundation that is secure, supportable, and commercially realistic.
