Service overview

Copilot success isn't measured in licenses – it relies on a detailed adoption and enablement programme.

Copilot Unlocked is a half-day, leadership-friendly accelerator that turns Copilot licenses into day-to-day impact. It starts with a user survey to pinpoint where colleagues spent the most time and where the most value can be extracted, before introducing the AI journey, sharpen prompting skills, and providing a mechanism on how to monitor Copilot ROI.

Who is this service for?

Senior leadership teams, C-Suites and Directors, or organisations with fewer than 50 Copilot seats, serving as a one-off accelerator to kickstart effective Copilot adoption.

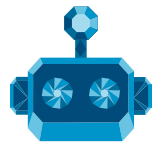

Addressing your challenges

Identifying where Copilot can make the biggest impact

Improving AI communication to gain, not cost, time

Recognising and realising the value of AI Agents

Expertise in action

Our accelerated Copilot enablement programme helps you quickly and effectively realise a return on your licensing investment.

What we deliver

- Use case identification and prioritisation to target the areas that will deliver the best return
- An overview of how to harness Copilot across six core areas with acceleration for all users
- 'Prompting like a pro' fundamentals to master AI communication
- An understanding of what Agents are, how they can help your organisation, and one starter Agent built to your organisational needs
- Recognition and monitoring model to track adoption rates and calculate license ROI
