

Corporate Mobile Device Managed Service

Maintain security and compliance across corporate iOS and Android devices with Microsoft Intune

For more information on this, or our wider **AI Productivity** services, speak to a Cloud Direct Sales Executive or contact hello@clouddirect.net.

Service overview

In the world of working from anywhere, keeping your users and their devices safe and secure is critical.

Cloud Direct's Corporate Mobile Device Managed Service securely manages company-owned mobile devices across their full lifecycle. Delivered as a bolt-on to M365 and Endpoint Managed Services, it focusses on enrolment, configuration, compliance, application protection, and reporting to keep corporate data safe while enabling consistent, supportable mobile working.

Who is this service for?

Organisations with corporate-owned mobile devices that require secure, governed, and compliant management across iOS and Android platforms to support their teams, wherever they're working from.

Addressing your challenges

Tackling inconsistent mobile configurations

Governance gaps from uncontrolled device lifecycles

Limited device visibility reducing security confidence

Service deliverables

A governed mobile device management plan that covers the full device lifecycle, from onboarding and configuration to reporting, protection, and renewals.

Core components

- Device enrolment via Android Enterprise and Apple Business Manager
- Baseline configurations and lifecycle governance
- Application protection policies for corporate data
- Managed app deployment via Company Portal
- Monthly health reporting and remote management

Ongoing activities

- Secure device assignment and re-allocation
- Compliance enforcement
- Monthly service review inputs
- Remote device support
- Continuous improvements

Outcomes that matter

A secure, compliant, and supportable mobile device estate that protects corporate data while enabling productive, flexible modern working.

Consistency across all corporate devices

Improved protection of corporate data

Clear visibility of device compliance

Reduced operational risk

Better user productivity and security

Microsoft best practice governance

Cloud Direct's added value

We combine deep Microsoft expertise with a mature, operational security framework that delivers accountability, transparency, and measurable outcomes for your business.
