CloudDirect®

CLOUD, DATA AND AI MODERNISATION

Microsoft Fabric Data Platform MVP

Turn a priority business use case into a secure, governed Microsoft data platform that creates a foundation for the future

For more information on this, or our wider **Cloud, Data and AI Modernisation** services, speak to a Cloud Direct Sales Executive or contact hello@clouddirect.net.

Service overview

Organisations need trusted, accessible data to make better decisions and prepare for AI – but fragmented sources, inconsistent governance and unclear priorities prevent progress.

Cloud Direct's Data Platform MVP turns a prioritised business use case into a secure, governed Microsoft data platform, combining data ingestion, modelling, governance and reporting to deliver business-ready insight and a foundation for future Data and AI initiatives.

Who is this service for?

Organisations ready to modernise their data estate, prove value through a prioritised business use case and establish secure, governed foundations for future analytics, Data & AI initiatives.

Addressing your challenges

- Fragmented data making trusted business insight difficult to achieve
- Data quality and governance gaps reducing confidence in analytics
- Unclear priorities making it difficult to turn AI ambition into measurable value

Your Frontier Journey

Frontier Studio ▸ **Frontier Foundation** ▸ Frontier Build

Expertise in action

From discovery through to delivery, we combine Microsoft data expertise with a structured approach to turn a priority use case into a working data platform.

What we deliver

- Discovery and prioritisation of use cases, requirements, success criteria and data sources
- Microsoft Fabric architecture and platform design aligned to Microsoft best practice
- Data ingestion, transformation and modelling for the agreed use case
- Foundational Microsoft Purview governance, including catalogue, glossary and lineage activities
- Power BI report design and development aligned to agreed measures and dimensions
- Testing, production release and handover, plus support for continued development and scale

Outcomes that matter

Create trusted data foundations that deliver immediate business value while enabling future Data & AI initiatives.

- A working data platform that delivers value
- Trusted, business-ready data for analytics and reporting
- Improved data accessibility and quality
- Governance embedded into platform foundations
- A secure, scalable architecture aligned to Microsoft best practice
- A roadmap to accelerate future Data & AI initiatives

Cloud Direct's added value

Our talented team of certified Data and AI Specialists combine strategic insight with deep technical expertise to deliver rapid proof, actionable outcomes, and a clear path to scalable success in your Data and AI initiatives.
